

JOB DESCRIPTION

3D MODELER AND ANIMATOR

W MOTORS SAL DUBAI – DESIGN STUDIO

Department: Design Studio
Reporting to: Creative Director
Place: Dubai, United Arab Emirates

SUMMARY OF THE JOB DESCRIPTION

As a 3D Modeler and Animator at W Motors Design Studio, your main duty is to work closely with the Creative Director on all internal W Motors projects and external third party projects handled by W Motors. The below tasks should be covered enabling you to assist the Design Studio needs and requirements:

- Preparation of 3D modeling and animations for automotive designs, 3D models to be provided by the design team.
- Preparation of 3D animations for clients' projects and other internal projects as required by top management.
- Production of short videos to be used on various platforms including events, roadshows, social media and company presentations.
- Production of 3D 'still renders' in HD for company presentations.
- Execution of all promotional and marketing material in coordination with the Creative Director and marketing department.

SKILLS

- Degree in Graphic Design and 3D Modeling/Animation.
- Advanced knowledge in 3D animation, rendering softwares (Maya, KeyShot, Rhino)
- Fluent in English.
- Very good written and oral communication skills.
- Very good presentation skills including applicable attire for meetings and roadshows.

We are looking for a highly talented and energetic candidate who can work under pressure and deliver projects as per communicated deadlines.

The candidate is requested to be honest, discrete and trustful with regards to Top Management matters and confidential design projects.

Finally, the candidate can show continuous interest and updated knowledge about the automotive industry and direct competition. Candidate is required to coordinate on a daily and ongoing basis with the Creative director in order to ensure proper implementation of all projects within desired timeframe and as per requirements.
